Hi, I'm Shelby, and I want to represent *you* as Tallahassee's next City Commissioner (Seat 5).

As Commissioner, I will focus on:

1. improving our inadequate, and failing, public services (e.g. utilities) and infrastructure (e.g. roads)
2. increasing the efficiency of our public programs, services and infrastructure through data and tech
3. reducing our rate of poverty, utility disconnections, traffic crashes, and gun violence
4. building back better, equitably.
5. encouraging sustainable behavior to protect our precious, natural resources
