Education

B.Sc. Chemical Engineering
Florida State University
July 2020

Professional Experience

Co-founder

Together, Not For

November 2021 – Present // Remote

- Building modular software tools and offering project management to small community-based groups

Research Fellow

Energy and Policy Institute

October 2021 – Present // Remote

- Tracking the decarbonization strategy and progress of Dominion Energy and Duke Energy
- Building an energy policy and legislation database and mapping tool

Lead Software Developer

Climate Cabinet

May 2020 – August 2021 // Remote

- Built a map scoring select State Legislators' votes on climate and environmental legislation
- Designed and built the Texas Environmental Justice Explorer -- a mapping tool that visualizes an 'Environmental Justice Risk Score' based on EJSCREEN and local social and environmental data
- Translated ambiguous ideas into scoped prototypes and minimum viable products
- Developed automated data pipelines to fetch election, census, and geospatial data and store in a database

Sustainability Analyst

Leon County's Office of Sustainability

March 2019 - March 2021 // TLH

- Built tools, models, and web applications to supplement policies and streamline compliance.
- Analyzed facilities' energy consumption and operational greenhouse gas emissions.
- Researched best practices in energy management and sustainability to support policy recommendations.
- Scraped and analyzed social media data to gather citizens' opinions on local regulations. Information used to influence policy language.

Leadership Experience

Co-founder

Open Tallahassee

December 2021 – Present // TLH

Making public data accessible

Current data available:

- Traffic Accidents (2018-2021)
- Utility Disconnections (2021)

Supervisor

Leon's Soil and Water Conservation District

March 2021 – Present // TLH

Survey, track, and visualize environmental resources.

- Developed a Twitter Bot to openly communicate and track local air quality
- Currently designing a pilot program to test water quality for private landowners, in partnership with FAMU-FSU's College of Engineering

Providence Neighborhood Association

Friend

March 2021 – Present // TLH

- Led canvassing efforts to collect survey responses for the Neighborhood Plan Refresh
- Led canvassing and advocacy efforts to prevent utility disconnections.
  - Petition and brief delivered to the City Commission
  - Press coverage: WFSU and WCTV
  - Presented at Greenpeace's Inaugural Data Activism Co-op
- Write and manage grants
  - COVID-19 Taskforce ($2,500) – surveyed vaccine hesitancy
  - Park(ing) Day ($1,000) – converted a parking lot into an outdoor movie theater
