Shelby Green Running for Tallahassee City Commission Seat 5 in 2022

Invites Tallahassee residents to Join the Campaign by attending Kick-off Party

Tallahassee, Florida — Today, Shelby Green announced her campaign to run for Tallahassee City Commission Seat 5. Shelby is running to improve the efficiency of public services and infrastructure, which is integral to preparing Tallahassee for an increasingly unpredictable world. Shelby is running a people-focused, grassroots campaign, funded only by individuals. Shelby will not accept campaign contributions from corporations or trade associations.

Shelby Green has served as Supervisor of Leon's Soil and Water Conservation District since March 2020. In this role, she has developed tools to openly monitor and communicate Leon County's environmental resources. In addition, she works with the other Leon Supervisors to promote conservation programs and grant assistance funds to help property owners preserve local natural resources.

On Saturday, March 19th, Shelby will hold her campaign kick-off event to invite early supporters to get involved on her grassroots campaign. Attendees are encouraged to R.S.V.P. to the event by visiting shelbytlh.com/events.
